

## **Senior Structural Engineer/Project Manager**

**Ref: 10-017**

**Location: West Perth**

As a Structural Project Engineer for ICON you will be challenged by a diverse range of projects for major national and international oil and gas clients. You will be presented with a mix of brown field and green field projects in the areas of offshore and onshore infrastructure, drilling rig/platform design and modifications and field developments. Working autonomously, forming part of a larger group or as part of a small project team, you will be required to solve complex problems with innovative design solutions including overseeing the fabrication, construction and installation of your solutions.

ICON provides a flexible and collaborative team environment where you get to take ownership of the projects you will work on, challenge yourself and develop your career. Incentives for high achievement will be provided.

### **Experience**

As a degree qualified structural or civil engineer; you will have a proven capability in successfully managing multiple small to medium structural projects up to \$3m, be conversant with current offshore codes and specifications, have offshore experience in planning, managing and executing construction and installation phases of a project and have Stratum 3 current capability with Stratum 4 potential. You will possess excellent communication skills, a commitment to Safety and Quality and have an innovative approach to problem solving.

### **About Us**

ICON Engineering prides itself on providing innovative high quality solutions that exceed our client's expectations. We are a market leader in the provision of front end and detailed engineering, onshore and offshore facilities installation and construction, operations support and custom designed equipment.

ICON is based in West Perth. We have successfully undertaken projects for clients in the USA, UK, Norway, South East Asia, New Zealand and Australia.

ICON is founded on openness, teamwork and delivering results. We understand our competitive edge is our people.
